## Adding Devices to the Bongo IoT Platform: Two Methods

## Method 1: Adding Device via Tracking

- Navigate to the "Side Menu Bar" and select "Tracking."
- Click on the "Add vehicle" arrow icon.
- You will be directed to the vehicle registration page.

## Method 2: Adding Device via Settings

- Access the "Side Menu Bar" and choose "Settings."
- Go to setting > General > Vehicle/Object
- Click on the "Add vehicle" plus symbol.
- This action will open the device registration page

## **Device Registration Page**

- Access the device registration page.
- Locate the **"Device Type"** option.
- From the "Device List," choose the appropriate device type.
- Paste the IMEI Number of the selected device.
- Once all necessary details are filled, click the **"Save"** button to successfully add the device to the platform.

By following these steps, you can seamlessly register and integrate devices into the platform, enhancing your overall management capabilities.
