Adding Vehicle Documents In The Bongo IoT Platform:Two Methods

Method 1: Add Documents from Tracking Panel
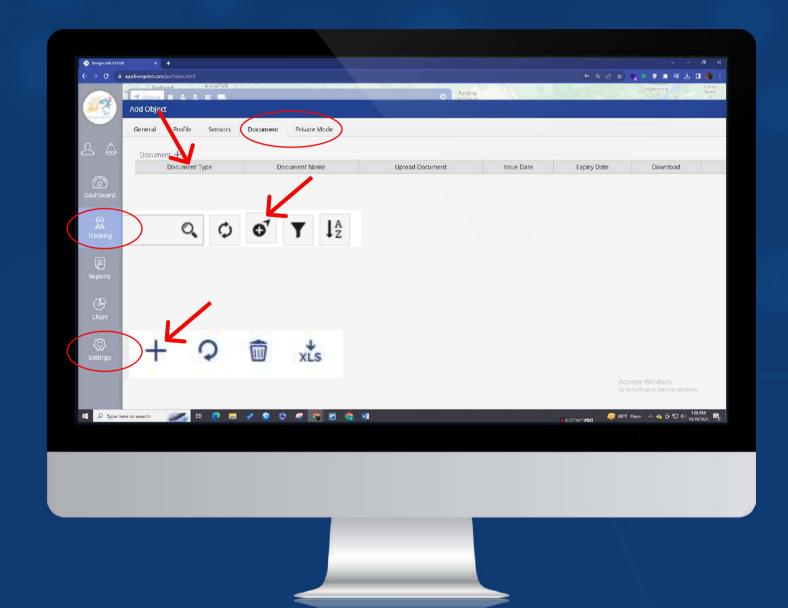

- Navigate to the "**Side Menu Bar**" and select "**Tracking.**"
- Click on the **"arrow icon"**.
- You will be directed to the document registration page.

Method 2: Adding Documents via Settings

- Access the "**Side Menu Bar**" and choose "**Settings.**"
- Go to setting > General > Vehicle/Object
- Click on the **"plus symbol."**
- This action will open the document registration page

Vehicle Registration Page:

- On the vehicle registration page, you'll find a "Document" option for adding your personal vehicle's documents.
- Click on "**Document,**" and you'll see several fields to fill out, including **Document Type, Document Name, Upload Document, Issue Date, Expiry Date, Download,** and **Add Reminder.**
- To upload the document, click the "**Add New**" plus button.
- Another pop-up window will appear, allowing you to easily upload your personal vehicle document into the system.
- After completing the necessary details, click the "**Save**" button to successfully add the vehicle to the platform.

By following these steps, the driver can use their credentials to log in to the Bongo IoT smartphone application.
