CEO's Greetings

Founder & CEO
Bongo IoT

Empowering a Smarter, Safer World Through Innovation...

At Bongo IoT, we turn challenges into triumphs through innovation powered by AI, Machine Learning, and Intelligent IoT solutions - driven by relentless research and unwavering dedication. This is our formula for success.

With transformative Telematics and Smart City Solutions, we empower businesses, cities, and communities globally, enhancing their efficiency, security, and sustainability. Supported by our worldclass technology partners, we bring market-winning solutions to life and advance global projects that shape a smarter,safer world.

Our current focus is on creating intelligent systems that optimize resources and streamline operations, while our future vision is to lead in connected technologies, building smarter cities and a more resilient future.

Together, with our trusted partners, we are solving today's challenges and designing tomorrow's breakthroughs."

Achievements in Building

Kyobo Tower (Building Automation System)

Kukje Electronics Center
(Building Automation System)

Nonghyup Bank Jeju Sales Headquarters
(Building Automation System)

Sindaebang Nongshim Office Building
(Building Automation System)

Sinmokdong Station Knowledge Industry Center
(Building Automation System)

Osstem Implant Central Research Institute
(Building Automation System)

Achievements in Apartment House

e-Pyeonhansesang Unjeong Urban Prime
(Building Automation System)

Gwacheon Prugio S1
(Building Automation System)

Daegu Jincheon-dong Raon Private
(Building Automation System)

Daejeon Seonhwa District B
(Building Automation System)

Sindaebang Hyeopseong Huefore
(Building Automation System)

Ilsan Prugio The Central
(Building Automation System)

Achievements in Production & Manufacturing Facilities

Nonghyup Hanaro Mart Yangju Agricultural Products Distribution Center (Building Automation System)

Daejeon Chungnam Pig Farming Nonghyup (Power Monitoring, Building Automation System)

Royal Canin Gimje Pet Food Plant (Power Monitoring, Lighting Control, Building Automation System, Building Access Control)

Osstem Haeundae Plant (Power Monitoring, Lighting Control)

Mando Test Center (Building Automation System)

Masan Nonghyup Distribution Center (Building Automation System)

Achievements in Educational Institution

Kangwon National University Dogye Campus (Lighting Control)

Kyonggi University Suwon Campus (Building Automation System)

Hanyang University College of Medicine Main Building (Building Automation System)

Hanyang University Animal Laboratory (Building Automation System)

Jeju National University Dormitory 4 (Building Automation System)

Hanyang University Student Dormitory 6 & 7 (Building Automation System)

Achievements in Government-level Construction

Naju Korea Institute of Planning and Evaluation for Technology in Food, Agriculture and Forestry
(Building Automation System)

Gwangju Yongsan Train Depot
(Building Automation System)

Sindeung-myeon Rural Center Revitalization Project (Building Automation System)

Osan Sports Center
(Building Automation System)

Gimcheon Memorial Park
(Building Automation System)

Gwangcheon Middle School
(Building Automation System)

More of our Achievements

Jeju Raon Private
(Building Automation System)

Daemyung Resort Cheongsong
(Building Automation System)

NH Nonghyup Jeju Training Center
(Building Automation System)

Jeju Port International Ferry Terminal
(Building Automation System)

Dongrae Mega Mart
(Building Automation System)

GSiheung Baegot CGV
(Building Automation System)

Specialized Solution

Building Automation System

Power Monitoring, Lighting Control

Zero Energy Building

Excellent Procurement Joint Trademark

Maintenance & Renovation Solution
